Declaration of support
for the European for Researchers
and the Code of Conduct for the recruitment of Researchers

International Laboratory of High Magnetic Fields and Low Temperatures (ILHMF<) represented by Professor Miroslaw Miller, Director welcomes and fully supports the Recommendation of the European Commission 2005/251/EC on “ The European Charter for researchers” and “ The Code of Conduct for the Recruitment of Researchers” (hereinafter refereed as the Charter and the Code).

By endorsing the Charter and the Code, ILHMF< recognizes the value of their principles and voluntarily commits itself to apply them.

The principles of the Character and the Code are in line with ILHMF< policy aiming to increase Institute’s attractiveness to researchers by offering them a favorable working environment, enhancing the quality of research and innovation and boosting international mobility.

By implementing the Charter and the Code ILHMF< intends to foster international collaboration and contribute to the development of an open and attractive European market for researchers.

Kind regards, **DIRECTOR**

prof. dr hab. Miroslaw Miller
